No more than one tender can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting a tender). SELECTION AND AWARD CRITERIA

16. Selection criteria
The following selection criteria will be applied to the tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole, if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

1) **Economic and financial capacity of the tenderer**: (based on item 3 of the tender form). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed in order to ascertain that the tenderer has sufficient financial stability to handle the proposed contract.
Tenderers which are legal entities must submit evidence of financial resources indicating an average annual turnover that exceeds the annualized maximum budget of the contract indicated above, i.e. the maximum budget stated in the contract notice divided by the initial duration in years; and a current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium this criterion must be fulfilled by each member.

For natural persons the available financial resources of the tenderer must exceed the annualized maximum budget of the contract i.e. the maximum budget stated in the contract notice divided by the initial contract duration in years; and the financial situation of the tenderer should not be in deficit, taken into account debts, at the beginning and end of year.

2) **Professional capacity of the tenderer**: (based on items 4 of the tender form). The reference period which will be taken into account will be the last three years from submission deadline. The objective of this criterion is to examine whether or not the tenderer (i.e., the consortium as a whole, in the case of a tenderer from a consortium):

- has sufficient ongoing staff resources and expertise to be able to handle the proposed contract;
- is not a so-called 'body shop', i.e. a tenderer with no real expertise in fields related to the contract but which simply identifies and proposes experts to fit the project description.

3) **Technical capacity of tenderer**: (based on items 5 and 6 of the tender form). The reference period which will be taken into account will be the last three years from submission deadline.

The tenderers shall demonstrate that they have carried out: (i) security threats assessment/analysis (ii) criminal intelligence and risks assessment, and (iii) research in crime related areas in IGAD or similar region using or applying the UNODC handbooks of assessment and methodologies or similar instruments.

This means that the project the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment for services). In case of projects still on-going only the portion satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value. If a tenderer has implemented the project in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which would have led to breach of contract and termination by a contracting authority shall not be used as reference. This is also applicable concerning the previous experience of experts required under a fee-based service contract.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It
must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must comply with the selection criteria for which the economic operator relies on them. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

17. Award criteria
Best price-quality ratio.
