ANNEX A: INSTRUCTIONS TO TENDERERS

REFERENCE: IPPSHAR-6545-01/2017- 6.6.3.G-01-2020

When submitting their tenders, tenderers must follow all instructions, forms, terms of reference, contract provisions and specifications contained in this tender dossier. Failure to submit a tender containing all the required information and documentation within the deadline specified may lead to the rejection of the tender.

3. Participation, experts and subcontracting

- a) Participation in this tender procedure is open only to the invited tenderers and to the candidates who will have responded to the advertisements placed on the websites. For the eligibility, please see point 11 of the contract notice.
- b) Natural or legal persons are not entitled to participate in this tender procedure or be awarded a contract if they are in any of the situations mentioned in Section 2.3.3.1. or 2.3.3.2. of the **Practical Guide**. Should they do so, their tender will be considered unsuitable or irregular respectively.
- c) In the cases listed in Section 2.3.3.1. of the **Practical Guide** tenderers may be excluded from EU financed procedures and be subject to financial penalties representing 2 % to 10 % of the total value of the contract in accordance with the conditions set in Section 2.3.4. of the **Practical Guide**. This information may be published on the Commission website in accordance with the conditions set in Section 2.3.4. of the Practical Guide.

- d) The contract between the tenderer/contractor and its experts shall contain a provision that it is subject to the approval of the partner country. It is furthermore recommended that this contract contains a dispute resolution clause.
- e) The tenderer must intend to provide the majority of the services itself except for the tasks entrusted to experts either as natural persons or single-member companies. If the tenderer intends to subcontract one or more parts of the contracted services, this must be clearly stated in the Organisation and Methodology and the Tender submission form.

4. Content of tenders

Offers, all correspondence and documents related to the tender exchanged by the tenderer and the Contracting Authority must be written in English.

Supporting documents and printed literature furnished by the tenderer may be in another language, provided they are accompanied by a translation into the language of the procedure. For the purposes of interpreting the tender, the language of the procedure has precedence.

The tender must comprise of a technical offer and a financial offer, which must be submitted in separate envelopes (see clause 8). Each technical offer and financial offer must contain one original, clearly marked 'Original', and five (5) copies, each marked 'Copy'. Failure to fulfil the requirements in clauses 4.1, 4.2 and 8 will constitute an irregularity and may result in rejection of the tender.

4.1. Technical offer

The Technical offer must include the following documents:

- (1) **Tender submission form** (see Part D of this tender dossier) including:
 - a) Signed statements of exclusivity and availability (using the template included with the tender submission form), one for each key expert, the purpose of which are as follows:
 - ❑ The key experts proposed in this tender must not be part of any other tender submitted for this tender procedure. They must therefore commit themselves exclusively to the tenderer.
 - ❑ Each key expert must also undertake to be available, able and willing to work for the whole period scheduled for his/her input to implement the tasks set out in the Terms of Reference and/or in the Organisation and methodology.

Note that non-key experts must not be asked to sign statements of exclusivity and availability.

Any expert working on an EU/EDF-financed project, where the input from his/her position to that contract could be required on the same dates as his/her activities under this contract, must not be proposed as a key expert for this contract under any circumstances. Consequently, the dates included by a key expert in his/her statement of exclusivity and availability in your tender must not overlap with dates on which he/she is committed to work as a key expert on any other contract.

The expert may participate in parallel tender procedures but must inform the Contracting Authority of these in the Statement of Exclusivity and Availability. Furthermore, the expert is expected to notify the tenderer immediately if he/she is successful in another tender procedure and he/she is expected to accept the first engagement offered to him/her chronologically.

If a key expert is proposed as a key expert by more than one tenderer with the agreement of the key expert, the corresponding tenders may be rejected. The same applies if the key expert proposed has been involved in the preparation of the project. The expert concerned will be excluded from this tender procedure and may also be excluded from other EU/EDF-financed contracts.

Having selected a firm partly on the basis of an evaluation of the key experts presented in the tender, the Contracting Authority expects the contract to be executed by these specific experts. However, after the award letter, the selected tenderer may propose replacements for the key experts under certain conditions (for further information see point 14).

- b) A signed **declaration** together with a signed "Declaration of honour on exclusion criteria and selection criteria" from each legal entity identified in the tender submission form, using the format attached to the tender submission form.
 - c) A completed **Financial Identification form** (see Annex VI to the draft contract) to indicate the bank account into which payments should be made if the tender is successful.
 - d) The **legal entity file** and supporting documents.
 - e) Duly authorised signature: an official document (statutes, power of attorney, notary statement, etc.) proving that the person who signs on behalf of the company/joint venture/consortium is duly authorised to do so.
- (2) **Organisation and methodology** (will become Annex III to the contract), to be drawn up by the tenderer using the format in Annex III to the draft contract.
- (3) **Key experts** (to become Annex IV to the contract). The key experts are those whose involvement is considered to be instrumental to achieve the contract objectives

Annex IV to the draft contract contains the templates that tenderers must use, including:

- a) a list of the names of the key experts;
- b) the CVs of each of the key experts. Each CV should be no longer than 3 pages and only one CV must be provided for each position identified in the Terms of Reference. Note that the CVs of non-key experts must not be submitted.

The qualifications and experience of each key expert must clearly match the profiles indicated in the Terms of Reference. If an expert does not meet the minimum requirements for each evaluation criterion (i.e., qualification and skills, general professional experience and specific professional experience), he/she must be rejected. In such case the entire tender shall be rejected.

Tenderers must provide the following documents for any key experts proposed:

- a copy of the diplomas mentioned in their CVs,
- a copy of employer certificates or references proving the professional experience indicated in their CVs.

Only diplomas and documented experience will be taken into account. Previous experience which would have led to breach of contract and termination shall not be used as reference.

The Contracting Authority may waive the obligation of any candidate or tenderer to submit the documentary evidence referred to above if such evidence has already been submitted for the purposes of another procurement procedure, provided that the issue date of the documents does not exceed one year and that they are still valid. In this case, the candidate or tenderer must declare on his/her honour that the documentary evidence has already been provided in a previous procurement procedure and confirm that his/her situation has not changed.

If the documentary evidence submitted is not written in one of the official languages of the European Union, a translation into the language of the procedure must be attached. Where the documents are in an official language of the European Union other than the one of the procedure, it is however strongly recommended to provide a translation into the language of the procedure, in order to facilitate the evaluation of the documents. Documentary proof or statements may be in

original or copy. If copies are submitted, the originals must be available to send to the Contracting Authority upon request.

Tenderers are reminded that the provision of false information in this tender procedure may lead to the rejection of their tender and to their exclusion from EU-funded procedures and contracts.

The electronic version of the technical offer must be included with the printed version in the separate envelope in which the technical offer is submitted. If there are any discrepancies between the electronic version and the original, printed version, the latter has precedence.

4.2. Financial offer

The Financial offer must be presented as an amount in [Euro] and must be submitted using the template for the global-price version of Annex V to part B of this tender dossier. The electronic version of this document ‘B8 — Budget for a global-price contract’ can be found on the website

<http://ec.europa.eu/europeaid/prag/document.do>.

The global price may be broken down by outputs if required from the Terms of Reference.

Tenderers are reminded that the maximum budget available for this contract, as stated in the contract notice, is EUR 25,002. Payments under this contract will be made in the currency of the tender.

The applicable tax and customs arrangements are as follows:

Exemption of taxes

The European Commission and IGAD have agreed to fully exonerate the Value Added Tax on the services provided under this programme.

5. Variant solutions

Tenderers are not authorised to tender for a variant in addition to this tender.

6. Period during which tenders are binding

Tenderers are bound by their tenders for 90 days after the deadline for submitting tenders or until they have been notified of non-award.

The selected tenderer must maintain its tender for a further 60 days. A further period of 60 days is added to the validity period irrespective of the date of notification. This period can be further extended when the contracting authority is required to obtain the recommendation of the panel referred to in section 2.3.3.1 of the Practical Guide, up to the adoption of that recommendation.

7. Additional information before the deadline for submitting tenders

The tender dossier should be clear enough to avoid candidates having to request additional information during the procedure. If the Contracting Authority, either on its own initiative or in response to a request from a tenderer, provides additional information on the tender dossier, it must send such information in writing to all the tenderers at the same time.

Tenderers may submit questions in writing to the following address up to 21 days before the deadline for submission of tenders, specifying the publication reference and the contract title:

Joshua Turinawe
IGAD PSD Procurement Officer

E-mail: joshua.turinawe@igad.int

under copy to john.auma@ada.gv.at

The Contracting Authority has no obligation to provide clarification after this date.

Any tenderer seeking to arrange individual meetings with the Contracting Authority and/or the government of the partner country and/or the European Commission concerning this contract during the tender period may be excluded from the tender procedure.

No information meeting or site visit is foreseen.

8. Submission of tenders

Tenders must be delivered to the Contracting Authority for **receipt** before **on or before 20.1.2022 at 12.00 pm, East African time**. They must include the requested documents in clause 4 above and be sent:

- **EITHER** by courier service, in which case the evidence shall be constituted by the date of the deposit slip,
- **OR** hand delivered by the participant in person or by an agent directly to the premises of the contracting authority in return for a signed and dated receipt, in which case the evidence shall be constituted by this acknowledgement of receipt, to:

**Intergovernmental Authority on Development (IGAD) Security Sector Programme,
5th floor Tensae Building, Cape Verde Street, Bole Road, off Africa Avenue,
Addis Ababa, Ethiopia.**

Tenders submitted by any other means will not be considered.

Tenders must be submitted using the double envelope system, i.e., in an outer parcel or envelope containing two separate, sealed envelopes, one bearing the words ‘**Envelope A — Technical offer**’ and the other ‘**Envelope B — Financial offer**’. All parts of the tender other than the financial offer must be submitted in Envelope A (i.e., including the Tender submission form, statements of exclusivity and availability of the key experts and declarations).

Any infringement of these rules (e.g., unsealed envelopes or references to price in the technical offer) constitutes an irregularity which will lead to rejection of the tender.

The outer envelope should provide the following information:

- a) the address for submitting tenders indicated above;
- b) the reference code of the tender procedure i.e., reference number;
- c) the words ‘Not to be opened before the tender-opening session’
- d) the name of the tenderer.

The pages of the Technical and Financial offers must be numbered.

9. Amending or withdrawing tenders

Tenderers may amend or withdraw their tenders by written notification prior to the deadline for submitting tenders. Tenders may not be amended after this deadline.

Any such notification of amendment or withdrawal must be prepared and submitted in accordance with Clause 8. The outer envelope (and the relevant inner envelope) must be marked ‘Amendment’ or ‘Withdrawal’ as appropriate.

10. Costs for preparing tenders

No costs incurred by the tenderer in preparing and submitting the tender are reimbursable. All such costs must be borne by the tenderer, including the cost of interviewing proposed experts.

11. Ownership of tenders

The Contracting Authority retains ownership of all tenders received under this tendering procedure. Consequently, tenderers do not have the right to have their tenders returned to them.

12. Evaluation of tenders

12.1. Evaluation of technical offers

The quality of each technical offer will be evaluated in accordance with the award criteria and the weighting detailed in the evaluation grid in Part C of this tender dossier. No other award criteria will be used. The award criteria will be examined in accordance with the requirements indicated in the Terms of Reference.

The evaluation of the technical offers will follow the procedures set out in Section 3.3.10 of the Practical Guide (available on the internet at <http://ec.europa.eu/europeaid/prag/document.do>).

12.1.1. Interviews

Interviews are foreseen.

12.2. Evaluation of financial offers

Upon completion of the technical evaluation, the envelopes containing the financial offers for tenders that were not eliminated during the technical evaluation will be opened (i.e. those with an average score of 75 points or more). Tenders exceeding the maximum budget available for the contract are unacceptable and will be eliminated.

12.3. Choice of selected tenderer

The best price-quality ratio is established by weighing technical quality against price on an 80/20 basis.

12.4. Confidentiality

The entire evaluation procedure is confidential, subject to the Contracting Authority's legislation on access to documents. The Evaluation Committee's decisions are collective and its deliberations are held in closed session. The members of the Evaluation Committee are bound to secrecy. The evaluation reports and written records are for official use only and may be communicated neither to the tenderers nor to any party other than the Contracting Authority, the European Commission, the European Anti-Fraud Office and the European Court of Auditors.

13. Ethics clauses / Corruptive practices

a) Absence of conflict of interest

The tenderer must not be affected by any conflict of interest and must have no equivalent relation in that respect with other tenderers or parties involved in the project. Any attempt by a tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the evaluation committee or the contracting authority during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of its tender and may result in administrative penalties according to the Financial Regulation in force.

b) Respect for human rights as well as environmental legislation and core labour standards

The tenderer and its staff must comply with human rights. In particular, and in accordance with the applicable basic act, tenderers and applicants who have been awarded contracts must comply with the environmental legislation including multilateral environmental agreements, and with the core labour standards as applicable and as defined in the relevant International Labour Organisation conventions (such as the conventions on freedom of association and collective bargaining; elimination of forced and compulsory labour; abolition of child labour).

Zero tolerance for sexual exploitation and sexual abuse:

- The European Commission applies a policy of 'zero tolerance' in relation to all wrongful conduct which has an impact on the professional credibility of the tenderer.
- Physical abuse or punishment, or threats of physical abuse, sexual abuse or exploitation, harassment and verbal abuse, as well as other forms of intimidation shall be prohibited.

c) Anti-corruption and anti-bribery

The tenderer shall comply with all applicable laws and regulations and codes relating to anti-bribery and anti-corruption. The European Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process or during the execution of a contract and if the contracting authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or execution of a contract already concluded with the contracting authority.

d) Unusual commercial expenses

Tenders will be rejected or contracts terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a payee who is not clearly identified or commissions paid to a company which has every appearance of being a front company.

Contractors found to have paid unusual commercial expenses on projects funded by the European Union are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.

e) Breach of obligations, irregularities or fraud

The contracting authority reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to breach of obligations, irregularities or fraud. If breach of obligations, irregularities or fraud are discovered after the award of the contract, the contracting authority may refrain from concluding the contract.

14. Signature of contract(s)

14.1. Notification of award

The successful tenderer will be informed in writing that its tender has been accepted.

The successful tenderer shall then confirm availability or unavailability of their key-experts within 5 days from the date of the notification of award.

In case of unavailability the tenderer will be allowed to propose replacement key-expert(s). The successful tenderer shall give due justification for the exchange of key-expert but the acceptance will not be limited to specific cases. Several replacement key-experts may be proposed but only one time-period of 15 days from the date of the notification of award will

be offered. The replacement key-expert(s) cannot be an expert proposed by another tenderer in the same call for tender.

The replacement key-expert's total score must be at least as high as the scores of the key-expert proposed in the tender. It must be emphasised that the minimum requirements for each evaluation criteria must be met by the replacement expert.

If replacement key-experts are not proposed within the 15 days' delay or if the replacement experts are not sufficiently qualified, or that the proposal of the replacement key-expert amends the award conditions which took place, the contracting authority may decide to award the contract to the second best technically compliant tenderer (also giving them a chance to replace a key-expert should he/she not be available).

Should the contracting authority learn that a tenderer has confirmed the availability of a key expert and signed the contract although the tenderer has deliberately concealed the fact that the key-expert is unavailable from the date specified in the tender dossier for the start of the assignment, the contracting authority may decide to terminate the contract on the basis of article 36.2 (m) of the general conditions.

It is reminded that the tenderer/contractor may also be subject to administrative and financial penalties foreseen in article 10.2 of the general conditions of service contracts. Furthermore, it may lead to a tenderer's /contractor's exclusion from other contracts funded by the European Union.

14.2. Signature of the contract(s)

Within 30 days of receipt of the contract already signed by the Contracting Authority, the selected tenderer shall sign and date the contract and return it to the Contracting Authority.

Failure of the selected tenderer to comply with this requirement may constitute grounds for annulling the decision to award the contract. In this event, the Contracting Authority may award the tender to another tenderer or cancel the tender procedure.

The other tenderers will, at the same time as the notification of award is submitted, be informed that their tenders were not retained, by electronic means or standard letter, including an indication of the relative weaknesses of their tender by way of a comparative table of the scores for the winning tender and the unsuccessful tender. The second-best tenderer is informed of the notification of award to the successful tenderer with the reservation of the possibility to receive a notification of award in case of inability to sign the contract with the first ranked tenderer. The validity of the offer of the second-best tenderer will be kept. The second tenderer may refuse the award of the contract if, when receiving a notification of award, the 90 days of validity of their tender has expired.

The Contracting Authority will furthermore, at the same time, also inform the remaining unsuccessful tenderers and the consequence of these letters will be that the validity of their offers must not be retained.

14. Cancellation of the tender procedure

In the event of cancellation of the tender procedure, the Contracting Authority will notify tenderers of the cancellation. If the tender procedure is cancelled before the outer envelope of any tender has been opened, the unopened and sealed envelopes will be returned to the tenderers.

Cancellation may occur, for example, where:

- the tender procedure has been unsuccessful, i.e., no suitable, qualitatively or financially acceptable tender has been received or there is no valid response at all;
- there are fundamental changes to the economic or technical data of the project;

- exceptional circumstances or force majeure render normal performance of the contract impossible;
- all technically acceptable tenders exceed the financial resources available;
- there have been substantial errors, irregularities or frauds in the procedure, in particular if they have prevented fair competition;
- the award is not in compliance with sound financial management, i.e., does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market).

In no event shall the Contracting Authority be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure, even if the Contracting Authority has been advised of the possibility of damages. The publication of a contract notice does not commit the Contracting Authority to implement the programme or project announced.

15. Appeals

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint to the contracting authority in accordance with the provisions of IGAD Procurement Manual Revised January 2017 paragraph 7.9. See section 2.4.15 of the Practical Guide.

Participation is also open to international organizations.

12. Candidature

All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply.

A consortium may be a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e., the leader and all other members) are jointly and severally liable to the contracting authority.

The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

13. Number of Tenders

No more than one tender can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting a tender). SELECTION AND AWARD CRITERIA

18. Selection criteria

The following selection criteria will be applied to the tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole, if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

- 1) **Economic and financial capacity of the tenderer:** (based on item 3 of the tender form).
In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed in order to ascertain that the tenderer has sufficient financial stability to handle the proposed contract.
 - **Not applicable**
- 2) **Professional capacity of the tenderer:** (based on items 4 of the tender form). The reference period which will be taken into account will be the last three years from submission deadline.
 - has a professional certificate appropriate to this contract with a minimum of Master's degree in any of the social sciences.
- 3) **Technical capacity of tenderer:** (based on items 5 and 6 of the tender form). The reference period which will be taken into account will be the last three years from submission deadline.
 - has performed similar tasks in at least one assignment in the last 3 years.

This means that the project the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment for services). In case of projects still on-going only the portion satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value. If a tenderer has implemented the project in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which would have led to breach of contract and termination by a contracting authority shall not be used as reference. This is also applicable concerning the previous experience of experts required under a fee-based service contract.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must comply with the selection criteria for which the economic operator relies on them. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

19. Award criteria

Best price-quality ratio.

TENDERING

20. Deadline for receipt of tenders

The candidate/tenderer's attention is drawn to the fact that there are two different systems for sending tenders: one is by courier or by hand delivery.

In the first case, the tender must be sent before the date and time limit for submission, as evidenced by deposit slip, but in the second case it is the acknowledgment of receipt given at the time of the delivery of the tender which will serve as proof.

The deadline for receipt of tenders is **20/1/2022 at 12.00 pm East African Time** as specified in point 8 of the instruction to tenderers.

Any tender submitted to the contracting authority after this deadline will not be considered.

The contracting authority may, for reasons of administrative efficiency, reject any tender submitted on time to the courier service but received, for any reason beyond the contracting authority's control, after the effective date of approval of the evaluation report, if accepting tenders that were submitted on time but arrived late would considerably delay the evaluation procedure (for instance when tenders are received after the evaluation committee has finished its works and evaluating them would imply re-calling the evaluation committee) or jeopardize decisions already taken and notified.

21. Tender format and details to be provided

Tenders must be submitted using the standard tender form for simplified procedures, the format and instructions of which must be strictly observed. The tender form is available from the following internet address: <http://ec.europa.eu/europeaid/prag/annexes.do?group=B> , under the zip file called Simplified Tender dossier.

The tender must be accompanied by a declaration of honour on exclusion and selection criteria using the template available from the following Internet address:

Taking the emerging political and socio-economic challenges into consideration, the revitalized IGAD was launched with more expanded mandate to be the premier Regional Economic Community (REC) for achieving peace and sustainable development in the IGAD region.
